# Speed sensor 50374

for center motor

DATASHEET

Type **Wheel speed sensor**  
Position **Left**

## Specifications

Voltage **5V**  
Impulses per rotation **1**  
Sensor type **Magnetic**  
Operating temperature **-20°C-45°C**  
LED indication **Yes**

## Tests & specification

IP **IP66**  
Certifications **CE / EN 15194 / REACH / ROHS**

## Wiring

Wheel speed sensor cable	<b>100 mm</b>	Connector: <b>3 pin circular</b>	Rating: <b>IP66</b>
--------------------------	---------------	----------------------------------	---------------------

## Mounting

Distance to magnet **15-20 mm**

## Compatible motors

50370  
50371  
50361  
50970

## DIMENSIONS
