

Speed sensor 50374

for center motor

DATASHEET

Type **Wheel speed sensor**
Position **Left**

Compatible motors

50370
50371
50361
50970

Specifications

Voltage **5V**
Impulses per rotation **1**
Sensor type **Magnetic**
Operating temperature **-20°C-45°C**
LED indication **Yes**

Tests & specification

IP **IP66**
Certifications **CE / EN 15194 / REACH / ROHS**

Wiring

Wheel speed sensor cable	100 mm	Connector:	3 pin circular	Rating:	IP66
--------------------------	---------------	------------	-----------------------	---------	-------------

Mounting

Distance to magnet **15-20 mm**
